Java SE 27 & JDK 27

Class LinkageError

java.lang.Object
  java.lang.Throwable
    java.lang.Error
      java.lang.LinkageError

All Implemented Interfaces:

Serializable

Direct Known Subclasses:

BootstrapMethodError, ClassCircularityError, ClassFormatError, ExceptionInInitializerError, IncompatibleClassChangeError, NoClassDefFoundError, UnsatisfiedLinkError, VerifyError

---

```
public class LinkageError
extends Error
```

Subclasses of `LinkageError` indicate that a class has some dependency on another class; however, the latter class has incompatibly changed after the compilation of the former class.

Since:

1.0
