Java SE 27 & JDK 27

Class NotSerializableException

java.lang.Object
  java.lang.Throwable
    java.lang.Exception
      java.io.IOException
        java.io.ObjectStreamException
          java.io.NotSerializableException

All Implemented Interfaces:

Serializable

```
public class NotSerializableException
extends ObjectStreamException
```

Thrown when an instance is required to have a Serializable interface. The serialization runtime or the class of the instance can throw this exception. The argument should be the name of the class.

Since:

1.1
