Java SE 27 & JDK 27

Class AbstractMethodError

java.lang.Object
  java.lang.Throwable
    java.lang.Error
      java.lang.LinkageError
        java.lang.IncompatibleClassChangeError
          java.lang.AbstractMethodError

All Implemented Interfaces:

Serializable

```
public class AbstractMethodError
extends IncompatibleClassChangeError
```

Thrown when an application tries to call an abstract method. Normally, this error is caught by the compiler; this error can only occur at run time if the definition of some class has incompatibly changed since the currently executing method was last compiled.

Since:

1.0
