**Java SE 27 & JDK 27**

# Class CloneNotSupportedException

java.lang.Object
    java.lang.Throwable
        java.lang.Exception
            java.lang.CloneNotSupportedException

**All Implemented Interfaces:**

Serializable

**Direct Known Subclasses:**

ServerCloneException

---

```
public class CloneNotSupportedException
extends Exception
```

Thrown to indicate that the `clone` method in class `Object` has been called to clone an object, but that the object's class does not implement the `Cloneable` interface.

Applications that override the `clone` method can also throw this exception to indicate that an object could not or should not be cloned.

**Since:**

1.0

**See Also:**

`Cloneable`, `Object.clone()`, Serialized Form

## *Constructor Summary*
