Java SE 27 & JDK 27

Class NoSuchMethodError

java.lang.Object
  java.lang.Throwable
    java.lang.Error
      java.lang.LinkageError
        java.lang.IncompatibleClassChangeError
          java.lang.NoSuchMethodError

All Implemented Interfaces:

Serializable

```
public class NoSuchMethodError
extends IncompatibleClassChangeError
```

Thrown if an application tries to call a specified method of a class (either static or instance), and that class no longer has a definition of that method.

Normally, this error is caught by the compiler; this error can only occur at run time if the definition of a class has incompatibly changed.

Since:

1.0
