Java SE 27 & JDK 27

Annotation Interface Retention

```
@Documented
@Retention(RUNTIME)
@Target(ANNOTATION_TYPE)
public @interface Retention
```

Indicates how long annotations with the annotated interface are to be retained. If no Retention annotation is present on an annotation interface declaration, the retention policy defaults to `RetentionPolicy.CLASS`.

A Retention meta-annotation has effect only if the meta-annotated interface is used directly for annotation. It has no effect if the meta-annotated interface is used as a member interface in another annotation interface.

See *Java Language Specification*:

9.6.4.2 @Retention

Since:

1.5

Required Element Summary

Required Elements

Modifier and Type	Required Element	Description
`RetentionPolicy`	**`value`**	Returns the retention policy.

Element Details

value

`RetentionPolicy value`

Returns the retention policy.

Returns:

the retention policy
