Java SE 27 & JDK 27

Class ClosedByInterruptException

java.lang.Object
  java.lang.Throwable
    java.lang.Exception
      java.io.IOException
        java.nio.channels.ClosedChannelException
          java.nio.channels.AsynchronousCloseException
            java.nio.channels.ClosedByInterruptException

All Implemented Interfaces:

Serializable

```
public class ClosedByInterruptException
extends AsynchronousCloseException
```

Checked exception received by a thread when another thread interrupts it while it is blocked in an I/O operation upon a channel. Before this exception is thrown the channel will have been closed and the interrupted status of the previously-blocked thread will have been set.

Since:

1.4
