Java SE 27 & JDK 27

Class ClosedChannelException

java.lang.Object
  java.lang.Throwable
    java.lang.Exception
      java.io.IOException
        java.nio.channels.ClosedChannelException

All Implemented Interfaces:

Serializable

Direct Known Subclasses:

AsynchronousCloseException

```
public class ClosedChannelException
extends IOException
```

Checked exception thrown when an attempt is made to invoke or complete an I/O operation upon channel that is closed, or at least closed to that operation. That this exception is thrown does not necessarily imply that the channel is completely closed. A socket channel whose write half has been shut down, for example, may still be open for reading.

Since:

1.4
