java.util.concurrent

Class TimeoutException

java.lang.Object
    java.lang.Throwable
        java.lang.Exception
            java.util.concurrent.TimeoutException

All Implemented Interfaces:

Serializable

```
public class TimeoutException
extends Exception
```

Exception thrown when a blocking operation times out. Blocking operations for which a timeout is specified need a means to indicate that the timeout has occurred. For many such operations it is possible to return a value that indicates timeout; when that is not possible or desirable then `TimeoutException` should be declared and thrown.

Since:

1.5
