Java SE 27 & JDK 27

Class ArithmeticException

java.lang.Object
  java.lang.Throwable
    java.lang.Exception
      java.lang.RuntimeException
        java.lang.ArithmeticException

All Implemented Interfaces:

Serializable

```
public class ArithmeticException
extends RuntimeException
```

Thrown when an exceptional arithmetic condition has occurred. For example, an integer "divide by zero" throws an instance of this class. `ArithmeticException` objects may be constructed by the virtual machine as if suppression were disabled and/or the stack trace was not writable.

Since:

1.0
